of the European Communities own resources ◀**

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 279 thereof,

Having regard to the Treaty establishing the European Atomic Energy Community, and in particular Article 183 thereof,

Having regard to Council Decision 94/728/EC, Euratom of 31 October 1994, on the system of the Communities' own resources ⁽¹⁾, and particularly Article 8(2) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament ⁽²⁾,

Having regard to the opinion of the Court of Auditors ⁽³⁾,

Whereas:

- (1) Council Regulation (EEC, Euratom) No 1552/89 of 29 May 1989, implementing Decision 88/376/EEC, Euratom on the system of the Communities' own resources ⁽⁴⁾ has been frequently and substantially amended ⁽⁵⁾. For reasons of clarity and rationality the said Regulation should therefore be codified.
- (2) The Community must have the own resources referred to in Article 2 of Decision 94/728/EC, Euratom available in the best possible conditions and accordingly arrangements must be laid down for the States to provide the Commission with the own resources allocated to the Communities.
- (3) Traditional own resources are levied by the Member States in accordance with laws, regulations and administrative provisions that are, where necessary, adapted to the requirements of Community regulations. The Commission must monitor such adaptation and, where necessary, make proposals.
- (4) The Council and the representatives of the Governments of the Member States, meeting within the Council, adopted a resolution on 13 November 1991 on the protection of the financial interests of the Community ⁽⁶⁾.
- (5) The concept of establishment must be defined in respect of the own resources and detailed rules must be laid down for satisfying the obligation to establish the own resources referred to in Article 2(1)(a) and (b) of Decision 94/728/EC, Euratom.
- (6) For own resources deriving from sugar levies, which need to be recovered in the budget year corresponding to the marketing year

⁽¹⁾ OJ L 293, 12.11.1994, p. 9. Decision replacing Decision No 88/376/EC, Euratom (OJ L 185, 15.7.1988, p. 24).

to which the expenditure relates, provision should be made for the Member States to make such levies available to the Commission during the budget year in which they are established.

- (7) The transparency of the own resources system should be improved and more information supplied to the budgetary authority.
- (8) The Member States must keep at the disposal of the Commission and, where necessary, forward to it the documents and information needed to allow it to exercise the power conferred upon it as regards the Communities' own resources.
- (9) The national authorities responsible for the collection of own resources must be able to produce to the Commission at all times the documents substantiating the own resources collected.
- (10) The arrangements whereby the Member States report to the Commission, should make it possible for the latter to monitor Member States action to recover own resources, in particular in cases of fraud and irregularities.
- (11) Separate accounts should be kept for entitlements which have not been recovered. These accounts and the submission of a quarterly statement of such accounts should enable the Commission to monitor more closely the action taken by Member States to collect own resources, and particularly those compromised by fraud or irregularities.
- (12) A time limit should be laid down for relations between Member States and the Commission, since new entitlements established by Member States in respect of earlier years are deemed to be establishments for the current year.
- (13) Provision should be made, as regards the own resources accruing from value added tax, hereinafter called 'VAT resources', referred to in Article 2(1)(c) of Decision 94/728/EC, Euratom, for Member States to make available to the Community, in the form of constant monthly twelfths, the own resources entered in the budget and subsequently to adjust the amounts made available in accordance with the actual base of VAT resources as soon as it is fully known.
- (14) This procedure is also to apply to the additional resource referred to in Article 2(1)(d) of the said Decision, hereinafter referred to as 'the additional resource', created in accordance with Council Directive 89/130/EEC, Euratom of 13 February 1989 on the harmonization of the compilation of the gross national product at market prices ⁽¹⁾.
- (15) The own resources must be made available in the form of an entry of the amounts due in an account opened for this purpose in the name of the Commission with the Treasury or with the body appointed by each Member State. In order to restrict the movements of funds to that which is necessary for the implementation of the budget, the Community must confine itself to drawing on the abovementioned accounts solely to cover the Commission's cash requirements.
- (16) The payment of aid resulting from application of Council Regulation (EEC) No 1765/92 of 30 June 1992 establishing a support system for producers of certain arable crops ⁽²⁾ is mainly concentrated in the opening months of the year; whereas the Commission must have sufficient cash resources to make this payment.

⁽²⁾ OJ L 181, 1.7.1992, p. 12. Regulation replaced by Regulation (EC) No 1251/1999 (OJ L 160, 26.6.1999, p. 1).

▼B

- (17) Council Decision 94/729/EC of 31 October 1994 concerning budgetary discipline⁽¹⁾ provides for the entry in the general budget of the European Union of a reserve relating to Community loans and loan guarantees to non-member countries and in those countries a reserve for emergency aid. Amendments need to be made to cover the entry of the own resources corresponding to these reserves.
- (18) In order to ensure that the Community budget will be financed in all circumstances, the procedure for making available the contributions based on the gross national product, hereinafter referred to as the 'GNP financial contributions', referred to in Article 2(7) of Decision 88/376/EEC, Euratom should be laid down.
- (19) The balance to be carried forward to the following financial year should be defined.
- (20) The Member States should conduct the checks and enquiries relating to the establishment and making available of own resources. The Commission should exercise its powers in accordance with this Regulation. The powers of the Commission should be stipulated with regard to the inspection measures on the additional resource.
- (21) Close collaboration between Member States and the Commission will facilitate proper application of the financial rules relating to own resources,

HAS ADOPTED THIS REGULATION:

That rate shall be expressed in the budget by a figure containing as many decimal places as is necessary to fully divide the GNI-based resource among the Member States.

They shall provide for any appropriate time limits for implementation.

5. In the two months following the end of each quarter, each Member State shall send the Commission a description of cases of fraud and irregularities detected involving entitlements of over EUR 10 000.

TITLE III

Making available own resources*Article 9*

1. In accordance with the procedure laid down in Article 10, each Member State shall credit own resources to the account opened in the name of the Commission with its Treasury or the body it has appointed.

This account shall be kept free of charge.

▼ M2

1a. Member States or the bodies appointed by them shall transmit to the Commission, by electronic means:

- (a) on the working day on which the own resources are credited to the account of the Commission, a statement of account or a credit advice showing the entry of the own resources;
- (b) without prejudice to point (a), at the latest on the second working day following the crediting of the account, a statement of account showing the entry of the own resources.

▼ M1

2. The amounts credited shall be accounted for in euro in accordance with the Financial Regulation ⁽¹⁾ applicable to the general budget of the European Communities and its implementing rules.

▼ M2*Article 10*

1. After deduction of collection costs in accordance with Article 2(3) and Article 10(3) of Decision 2007/436/EC, Euratom entry of the own resources referred to in Article 2(1)(a) of that Decision shall be made at the latest on the first working day following the 19th day of the second month following the month during which the entitlement was established in accordance with Article 2 of this Regulation.

However, for entitlements shown in separate accounts under Article 6(3)(b) of this Regulation, the entry must be made at the latest on the first working day following the 19th day of the second month following the month in which the entitlements were recovered.

2. If necessary, Member States may be invited by the Commission to bring forward by one month the entry of resources other than VAT resources and the additional resource on the basis of the information available to them on the 15th of the same month.

Each entry brought forward shall be adjusted the following month when the entry mentioned in paragraph 1 is made. This adjustment shall entail the negative entry of an amount equal to that given in the entry brought forward.

3. VAT resources and the additional resource, taking into account the effect on these resources of the correction granted to the United Kingdom for budgetary imbalances and of the gross reduction granted to the Netherlands and to Sweden shall be credited on the first working day of each month, the amounts being one-twelfth of the relevant totals in the budget, converted into national currencies at the rates of exchange of the last day of quotation of the calendar year preceding the budget year, as published in the *Official Journal of the European Union*, C Series.

For the specific needs of paying EAGF expenditure, pursuant to Council Regulation (EC) No 1782/2003 of 29 September 2003 establishing common rules for direct support schemes under the common agricultural policy and establishing certain support schemes for farmers ⁽²⁾ and depending on the Community's cash position, Member States may be invited by the Commission to bring forward by one or two months in the first quarter of the financial year the entry of one-twelfth or a fraction of one-twelfth of the amounts in the budget for VAT resources and/or the additional resource, taking into account the effect on these resources of the correction granted to the United Kingdom for budgetary imbalances and of the gross reduction granted to the Netherlands and to Sweden.

⁽¹⁾ Council Regulation (EC, Euratom) No 1605/2002 of the Council of 25 June 2002 relating to the Financial Regulation applicable to the general budget of the European Communities (OJ L 248, 16.9.2002, p. 1).

⁽²⁾ OJ L 270, 21.10.2003, p. 1.;

▼M2

After the first quarter, the monthly entry requested may not exceed one-twelfth of VAT and GNI-based resources, while remaining within the limit of the amounts entered in the budget for that purpose.

The Commission shall notify the Member States thereof in advance, no later than two weeks before the entry requested.

The eighth subparagraph concerning the amount to be entered in January each year and the ninth subparagraph applicable if the budget has not been finally adopted before the beginning of the financial year shall apply to these advance entries.

Any change in the uniform rate of VAT resources, in the rate of the additional resource, in the correction granted to the United Kingdom for budgetary imbalances and in its financing referred to in Articles 4 and 5 of Decision 2007/436/EC, Euratom and in the financing of the gross reduction granted to the Netherlands and to Sweden shall require the final adoption of an amending budget and shall give rise to readjustments of the twelfths which have been entered since the beginning of the financial year.

These readjustments shall be carried out when the first entry is made following the final adoption of the amending budget if it is adopted before the 16th of the month. Otherwise they shall be carried out when the second entry following final adoption is made. By way of derogation from Article 8 of the Financial Regulation, these readjustments shall be entered in the accounts in respect of the financial year of the amending budget in question.

Calculation of the twelfths for January of each financial year shall be based on the amounts provided for in the draft budget, referred to in Article 272(3) of the EC Treaty and Article 177(3) of the EAEC Treaty and converted into national currencies at the rates of exchange of the first day of quotation following 15 December of the calendar year preceding the budget year; the adjustment shall be made with the entry for the following month.

If the budget has not been finally adopted before the beginning of the financial year, the Member States shall enter on the first working day of each month, including January, one-twelfth of the amount of VAT resources, and the additional resource taking into account the effect on these resources of the correction granted to the United Kingdom for budgetary imbalances and of the gross reduction granted to the Netherlands and to Sweden, entered in the last budget finally adopted; the adjustment shall be made on the first due date following final adoption of the budget if it is adopted before the 16th of the month. Otherwise, the adjustment shall be made on the second due date following final adoption of the budget.

4. Each Member State shall, on the basis of the annual statement on the VAT resources base provided for in Article 7(1) of Regulation (EEC, Euratom) No 1553/89, be debited with an amount calculated from the information contained in the said statement by applying the uniform rate adopted for the previous financial year and credited with the 12 payments made during that financial year. However each Member State's VAT resources base to which the above rate is applied may not exceed the percentage determined by Article 2(1)(b) of Decision 2007/436/EC, Euratom of its GNI as referred to in the first sentence of paragraph 7 of that Article. The Commission shall work out the balance and shall inform the Member States in time for them to enter it in the account referred to in Article 9(1) of this Regulation on the first working day of December of the same year.

5. Any corrections to the VAT resources base under Article 9(1) of Regulation (EEC, Euratom) No 1553/89 shall give rise for each Member State concerned whose base, allowing for these corrections, does not exceed the percentages determined by Articles 2(1)(b) and 10(2) of Decision 2007/436/EC, Euratom to the following adjustments to the balance referred to in paragraph 4 of this Article:

▼ M2

- the corrections under the first subparagraph of Article 9(1) of Regulation (EEC, Euratom) No 1553/89 made by 31 July shall give rise to a general adjustment to be entered in the account referred to in Article 9(1) of this Regulation on the first working day of December of the same year. However a particular adjustment may be entered before that date if the Member State concerned and the Commission are in agreement,
- where the measures which the Commission takes under the second subparagraph of Article 9(1) of Regulation (EEC, Euratom) No 1553/89 to correct the base lead to an adjustment of the entries in the account referred to in Article 9(1) of this Regulation, that adjustment shall be made on the date specified by the Commission pursuant to the said measures.

The changes to GNI referred to in paragraph 7 of this Article shall also give rise to an adjustment of the balance of any Member State whose base, allowing for those corrections, is capped at the percentages determined by Articles 2(1)(b) and 10(2) of Decision 2007/436/EC, Euratom.

The Commission shall inform the Member States of these adjustments in time for them to enter them in the account referred to in Article 9(1) on the first working day of December of the same year.

However, a particular adjustment may be entered at any time if the Member State concerned and the Commission are in agreement.

6. On the basis of figures for aggregate GNI at market prices and its components from the preceding year, supplied by the Member States in accordance with Article 2(2) of Regulation (EC, Euratom) No 1287/2003, each Member State shall be debited with an amount calculated by applying to GNI the rate adopted for the previous financial year and credited with the payments made during that previous financial year. The Commission shall work out the balance and shall inform the Member States in time for them to enter it in the account referred to in Article 9(1) of this Regulation on the first working day of December of the same year.

7. Any changes to the GNI of previous financial years pursuant to Article 2(2) of Regulation (EC, Euratom) No 1287/2003 subject to Article 5 thereof, shall give rise for each Member State concerned to an adjustment to the balance established pursuant to paragraph 6 of this Article. This adjustment shall be established in the manner laid down in the first subparagraph of paragraph 5 of this Article. The Commission shall inform the Member States of these adjustments so that they can enter them in the account referred to in Article 9(1) of this Regulation on the first working day of December of the same year. After 30 September of the fourth year following a given financial year, any changes to GNI shall no longer be taken into account, except on points notified within this time limit either by the Commission or by the Member State.

8. The operations referred to in paragraphs 4 to 7 constitute modifications to revenue in respect of the financial year in which they occur.

9. The gross reduction granted to the Netherlands and to Sweden shall be financed by all Member States. There shall be no subsequent revision of the financing of that gross reduction in the event of subsequent modification of the GNI figure.

10. In conformity with Article 2(7) of Decision 2007/436/EC, Euratom, for the purposes of applying that Decision 'GNI' shall mean GNI for the year at market prices as defined by Regulation (EC, Euratom) No 1287/2003, except for the years prior to 2002, for which GNP at market prices, as defined by Directive 89/130/EEC, Euratom, continues to be the reference for calculation of the additional resource.

▼ M1*Article 10a*

1. Where, pursuant to the Amsterdam Treaty and its Protocols 4 and 5, a Member State does not take part in the financing of a specific Union action or policy, it shall be entitled to an adjustment, calculated in accordance with paragraph 2, of the amount it has paid in own resources in respect of each year in which it has not taken part. This adjustment shall be made only once and it shall be final in the event of subsequent modification of the ►M2 GNI ◀ figure.

2. The Commission shall calculate the adjustment during the year following the financial year concerned, at the same time as it determines the ►M2 GNI ◀ balances provided for in Article 10 of this Regulation.

The calculation shall be made on the basis of the figures relating to the financial year in question:

- aggregate ►M2 GNI ◀ at market prices and its components,
- the budgetary outturn of operational expenditure corresponding to the measure or policy in question.

The adjustment shall be equal to the product of multiplying the total amount of the expenditure in question, with the exception of that financed by participating third countries, by the percentage that the ►M2 GNI ◀ of the Member State entitled to the adjustment represents of the ►M2 GNI ◀ of all Member States. The adjustment shall be financed by the participating Member States according to a scale determined by dividing their respective ►M2 GNI ◀ by the ►M2 GNI ◀ of all the participating Member States. For the purposes of calculating the adjustment, amounts shall be converted between the national currency and the euro at the exchange rate on the last day of quotation of the calendar year preceding the budget year concerned.

There shall be no subsequent revision of this adjustment in the event of subsequent modification of the ►M2 GNI ◀ figure.

3. The Commission shall inform the Member States in good time of the amount of the adjustment so that they can credit it to the account referred to in Article 9(1) of this Regulation on the first working day of December.

Article 11

1. Any delay in making the entry in the account referred to in Article 9(1) shall give rise to the payment of interest by the Member State concerned.

2. In the case of Member States belonging to the Economic and Monetary Union, the interest rate shall be equal to the rate as published in the *Official Journal of the European Union*, C series ►C1 which the European Central Bank applied to its main refinancing operations, ◀ on the first day of the month in which the due date fell, increased by two percentage points.

This rate shall be increased by 0,25 of a percentage point for each month of delay. The increased rate shall be applied to the entire period of delay.

3. In the case of Member States not belonging to the Economic and Monetary Union, the rate shall be equal to the rate applied on the first day of the month in question by the Central Banks for their main refinancing operations, increased by two percentage points, or, for the Member States for which the Central Bank rate is not available, the most equivalent rate applied on the first day of the month in question on the Member State's money market, increased by two percentage points. This rate shall be increased by 0,25 of a percentage point for each

month of delay. The increased rate shall be applied to the entire period of delay.

▼ M2

4. for the payment of interest referred to in paragraph 1, Article 9(1a) and (2) shall apply *mutatis mutandis*.

TITLE IV

Management of cash resources*Article 12*

1. The Commission shall draw on the sums credited to the accounts referred to in Article 9(1) to the extent necessary to cover its cash resource requirements arising out of the implementation of the budget.

2. If the cash resource requirements are in excess of the assets of the accounts, the Commission may draw in excess of the total of these assets subject to the availability of appropriations in the budget and within the limit of the own resources entered in the budget.
